

## SUMMARY

- Software Developer with 2+ years of industry experience in full Stack development. Experience contributing to the success of 6 projects, impacting user base of over 50,000, and achieving a 20% improvement in application performance.
- Strong expertise in front-end technologies like ReactJS, Angular and back-end technologies including NodeJS, Python.
- Hands-on experience of cloud-based services, contributing to the establishment of scalable and resilient architectures.

## WORK EXPERIENCE

**Web Developer Intern** | Just Natural Paws | Toronto, ON Aug 2023 - Nov 2023

- Designed user interface components using ReactJS and styling with Tailwind CSS for a responsive design.
- Integrated Firebase into Web App, serving as a centralized hub for database, authentication, and email functionality.
- Deployed applications to Digital Ocean droplet, resulting in a significant customer growth of 50%.

**Software Developer Intern** | The Transmogrify | Toronto, ON May 2023 - Aug 2023

- Developed microservices-based e-commerce backend with NodeJS, ExpressJS, and JWT for secure user authentication.
- Participated in the development of an e-commerce web application in ReactJS, employing Redux for state management and optimizing performance through lazy loading, resulting in improved user engagement and smooth user experience.
- Optimized PostgreSQL scripts, resulting in a 25% improvement in data retrieval speed.
- Utilized Docker and AWS services to scale NodeJS applications, ensuring an uptime rate of 99.98%.
- Implemented GraphQL to minimizing over-fetching, and enabling precise data querying, resulted in notable improvements in API performance.

**Software Developer** | SRKAY Consulting Group | Mumbai, India Dec 2019 - Nov 2021

- Led development of RESTful APIs, improving overall response time significantly.
- Created Angular user interfaces based on business requirements and integrated APIs to deliver the feature independently.
- Enhanced efficient SQL stored procedures, drastically improving data retrieval for a dataset of over 5 million records.
- Led Elasticsearch optimization, achieving a 50% reduction in storage demands, ensuring the platform's most efficient use while preserving data integrity.
- Improved overall system efficiency through advanced MongoDB queries.

## SKILLS

**Languages:** JavaScript, TypeScript, Python, Java, Go, C#  
**Web:** NodeJS, ReactJS, Angular, jQuery, Flask, Spring Boot, .NET, HTML/CSS  
**Databases:** MS SQL Server, PostgreSQL, MongoDB, Redis, Elasticsearch, GraphQL  
**Tools:** Docker, Jenkins, Git  
**Cloud Services:** Amazon Web Services, Microsoft Azure

## EDUCATION

**Postgraduate in Computer Software and Database Development** Jan 2022 - Aug 2023  
Lambton College Toronto, ON

**B.Tech in Information Technology** Aug 2016 - Jun 2020  
Ganpat University Mehsana, IN

## PROJECTS

**BookHub** | [View Project](#)

- a ReactJS, NodeJS web app with RESTful APIs, and MongoDB, providing a platform for reading collection management.

**TodoNow** | [View Project](#)

- a full-stack web app using ReactJS, NodeJS, and MongoDB, offering user-friendly functionalities for notes management.
