Utsav Gadhiya

WORK EXPERIENCE

Web Developer Intern | Just Natural Paws | Toronto, ON   Aug 2023 - Oct 2023

- Designed and developed user interface components using React and optimized styling with Tailwind CSS.
- Built dynamic web applications with Firebase, enabling efficient contact forms and email functionality.
- Deployed applications to Digital Ocean droplet, resulting in a significant customer growth of 50%.

Software Developer Intern | The Transmogrify | Toronto, ON   May 2023 - Aug 2023

- Developed microservices-based e-commerce backend with Node.js, Express.js, and JWT for secure user authentication.
- Contributed to the development of an e-commerce web application in React, employing Redux for state management and optimizing performance through lazy loading, resulting in improved user engagement and smooth user experience.
- Optimized SQL scripts to improve data retrieval and manipulation, resulting in noticeably faster query execution.
- Utilized Docker and AWS services to scale Node.js applications, ensuring high uptime rates.

Software Developer | SRKAY Consulting Group | Mumbai, India   Dec 2019 - Nov 2021

- Led the development of RESTful APIs, improving overall response time significantly.
- Created Angular user interfaces based on business requirements and integrated APIs to deliver the feature independently.
- Developed and executed SQL stored procedure scripts to optimize data retrieval and manipulation, resulting in a significant decrease in query execution time.
- Enhanced system efficiency through advanced MongoDB queries.
- Collaborated on optimizing Elasticsearch, reducing storage requirements by 50% while maintaining data integrity.

SKILLS

Languages:	JavaScript, TypeScript, Python, HTML, CSS
Frameworks:	Nodejs, React, Angular, Flask
Databases:	SQL, MongoDB, Redis, Elasticsearch, GraphQL
Tools:	Docker, Jenkins, Git
Cloud Services:	Amazon Web Services

EDUCATION

Post Graduate Certificate in Computer Software and Database Development   Jan 2022 - Aug 2023
Lambton College   *Toronto, ON*

B.Tech in Information Technology   Aug 2016 - Jun 2020
Ganpat University   *Mehsana, IN*

PROJECTS

BookHub | View Project

- Developed a web application using React for the front-end and Node.js for the back-end, which includes RESTful API endpoints for book data management.
- Utilized MongoDB with the Mongoose ODM to efficiently store and retrieve book information, providing a comprehensive platform for book enthusiasts to manage their reading collections.

TodoNow | View Project

- Developed a full-stack web application using React, Node.js, and MongoDB, offering comprehensive CRUD functionality for efficient note management.
- Leveraged React to create a user-friendly front-end interface and Node.js to create RESTful API endpoints for handling note data, while optimizing data storage and retrieval with MongoDB.
